Falling Into History

Brie Larson

Don't matter what people say I never did believe them
I know ,they know they know everything I'll be alright,
by myself No one's gunna tell me that I'm defined,
confined by love Now our days seem strange I guess my heart was bound to change
Chorus:I fell out,out of you and me you're fading from view and falling into history I fell out ,out of you and me you're fading
from view and falling into history
I never thought that I'd say that I don't really miss you I lived I breathed your breath through me time has a way of passing by until I don't remember why or how to hurt for you
Love's pain has gone somewhere and I'm fine leaving it there
CHORUS
I'll be alright by myself No one's gunna tell me I'm defined 'confined by love
