The Ghost Inside of Me

Nanci Griffith

Every prayer that I'm not praying
And every promise I'm betraying
Every price that I am paying
Is like a ghost inside of meAnd every road I could be taking
Every dream I am forsaking
And every heart that's out there breaking
Is like a ghost inside of meLook around, around, look around
Every time I turn around
I'm not who I ought to be
And down, down, it gets me down
Every time I look around
There is something haunting meEvery friend I am deserting
And every danger I am flirting
And every word that ends up hurting
Is like a ghost inside of meEvery heart I could be cheering
And every love that I am fearing
Every cry I am not hearing
Is like a ghost inside of meLook around, around, look around
Every time I turn around
I'm not who I ought to be
And down, down, it gets me down
Every time I look around
There is something haunting meEvery tear that I'm not crying
And every pain I am denying
And every lie I'm justifying
Is like a ghost inside of meLike a ghost inside of me
Like a ghost inside of me
Like a ghost inside of me
Like a ghost inside of me
