

# Soul Sister

## Mary Black

Looking back  
Down that long road you have traveled  
And I see  
All the pain that you have suffered  
Young girl walks on ancient sand  
Desert flower in her hand  
Barefoot on the red heartland  
Innocence makes few demands  
Heart and soul, my soul sister  
You got that special part of me  
Such sweet love and deep devotion  
Who would tame what's wild and free?  
Here we are  
In this crazy, crazy world  
Circumstance  
Can lead you on to desperation  
If love can save the weary heart  
Or it can tear us all apart  
I would rather take that chance  
Than to never trust again  
Heart and soul, my soul sister  
You got that special part of me  
Such sweet love and deep devotion  
Who would change what's wild and free?  
Heart and soul  
Looking forward  
Down that long road you have traveled  
And I see  
All the joy that is recovered  
See the young boy by the river side  
He throws a stick to the other side  
It carries with the rising tide  
Sometimes we might reach too high  
Heart and soul, my soul sister  
You got that special part of me  
Such sweet love and deep devotion  
Who would change what's wild and free?  
Heart and soul, my soul sister  
You got that special part of me  
Such sweet love and deep devotion  
Loving heart so wild and free
