

# I Know I Know

Monica da Silva

All my life  
Forgetting myself again  
And knowing that when you went  
You took half of me  
Seventeen  
And worried about who's on top  
And knowing that I'm not  
I've got room to grow

But I know I know that things will get better  
Yeah I know I know that we can go further  
Yeah I know I know that things will get better  
Cuz I know I know that we can go further then

Such is life  
Remembering me again  
And knowing that when you went  
It wasn't the same  
Seventeen  
And worried about who I'm not  
And when I found out I'm not  
I just had to go

But I know I know that things will get better  
Yeah I know I know that we can go further  
Yeah I know I know that things will get better  
Cuz I know I know that we can go further then

Well, don't say you'll love me if you won't,  
You know that you'd be lying to yourself then  
My heart just feels so happy  
When you tell me I'm your world  
Excuse me if I'm sappy but I'm a girl

And I know I know that things will get better  
Yeah I know I know that we can go further  
Yeah I know I know that things will get better  
Cuz I know I know that we can go further

Yeah I know I know that things will get better

Yeah I know I know that we can go further  
Yeah I know I know that things will get better  
Cuz I know I know that we can go further then

We can go further then  
We can go further then

---
