Mask

drumfish

No I dont believe the things you tell me
I dont believe the things you say are really true
And I ask you ask me what it is Ive said to turn you
What you lean seems far from hereDo you really not hear me saying
Do you really not have a choice
Just as big as a hundred thousand
Just as sure as I have a voice
No I wont accept placebos
No I wont accept your lies
I will not let you burn meNo I dont believe your way of getting even
Youre just wrong
And I cant break through this gray faade, your mask protects your very well
Its always onWhats wrong with you woman
Is there something you wont say
Your silence makes me crazy
And its breaking me with pain
No I wont accept placebos
I wont accept your lies
I will not let you burn me
