

Punk

Moho

Try to see myself what goes on
Make it up myself, I'll never
Always told my thoughts aloud

Then another day I shut upBack to the sand, doing what you can

Bound to be gone, danged a loser
Found out right then they were fed up

'Cause everybody said to shut upYeah!Thought that you might care what goes on

Try to say what up? I'm fed up
Everybody said to shut up

The last time I told them what up?Down with the sun I knew that I was done

Did it to my self, did it to my self, and then

All this time I said I've been fed up
'Cause everybody tells me shut up
