Elegy

Feeder

Summer breeze, kisses me
Autumn leaves retire
Apathy, breaking free
Still waiting for the sunSee me as I wait
See me wait
I can't see another
See me wait
ForeverReach a plea, honey feed
Open, feel like fire
Turning red, above my head
Reaching to recoverSee me as I wait
See me wait
I can't see another
See me wait
I can't end anotherOpen your arms (See me wait)
Just see how it is (Another)
Open your arms (See me wait)
Just see how it is, see how it is (Another)
Open your arms
Just see how it is (Another)
Reaching again (See me wait)
Just see how it is (Another)
