Try to Take Your Time

leah andreone

Written by leah andreone, bob marlette, and john lowery
I could make some music touching you
Give me some kind of chance
What the hell am I to doI'd lay tons of whispers in your ear
I'll let you touch feel the heat
A fever only spring could bringOoo try to take your time
Small bites
Try to take your time
All night
Saying ooo ahh ooo ahhh
Try to take your time
Small bites
Try to take your time
All night
Saying ooo ahh oooI'd steal the sun the earth the moon
Anything for you
Dance till the morning wakes
Seduce the skies and paint them blueDon't need a mockingbird
To sing anything to me
Don't need the autumn leaves
Just grace me with one little thingOoo try to take your time
Small bites
Try to take your time
Sayin' ooo ahh ooo ahh
Try to take your time
Small bites
Try to take your time
All night
Sayin' ooo ahh ooo
