

# Eye On You (Remastered)

Billy Squier

I watch you on the tv--you're with me every place I go  
I'm caught up in the daydream--i'm into everyone you know  
Turn on the action--grab every minute  
Learn every lesson--then live to regret it  
I'm so distracted--my mind's disengaged  
Share the moments when you're all the rage I got my eyes on you  
Got my eye on you...Those overnight conditions always get the best of you  
You're fueling my suspicions--i'm taken by the sneak preview  
You got the numbers--you got no limits  
One day you're out but the next day you're in it  
You find the answers--you know what to say  
Give us our reasons for living today I got my eyes on you  
Got my eye on you...We share the laughter and pain when you're in it  
Bring on disaster--cause we know you'll win it  
We're all believers--so watch what you say  
Turn on those feelings...i can't look away I got my eyes on you  
Got my eye on you
