WWIII

Rawkus

I declare war on the world
War in outer space
I declare war in a nutshell
War all over the placeI declare war on every government
War against all odds
I declare war on your inner sanctum
On your blood thirsty godsI declare war on the axis of morons
All out war on complacent consent
I declare war on the war against drugs
Rape and Slaughter of the innocentWar on big brother
Warmongers and profiteers
War on your dogma dubya
Armageddon's engineersWar in a heartbeat
I declare war on so-called civilization
World trade globalization
Organized desinformationWar on ambassadors of pretense
War on MTV and CNN
Macdonald's walt disney and bethlehem
On christina britney and eminemI declare war on the world of anti-choice
On violent unilaterality
On the amassment of murderous high-tech toys
And all crimes against humanityWar on the moral majority
On corparate.com imperialism
On mindlessly bumbling stupidity
And police-state terrorismWorldwar three - be all that you can be
