I declare war on the world  
War in outer space  
I declare war in a nutshell  
War all over the placeI declare war on every government  
War against all odds  
I declare war on your inner sanctum  
On your blood thirsty godsI declare war on the axis of morons  
All out war on complacent consent  
I declare war on the war against drugs  
Rape and Slaughter of the innocentWar on big brother  
Warmongers and profiteers  
War on your dogma dubya  
Armageddon's engineersWar in a heartbeat  
I declare war on so-called civilization  
World trade globalization  
Organized desinformationWar on ambassadors of pretense  
War on MTV and CNN  
Macdonald's walt disney and bethlehem  
On christina britney and eminemI declare war on the world of anti-choice  
On violent unilaterality  
On the amassment of murderous high-tech toys  
And all crimes against humanityWar on the moral majority
