

Dizzy

Freya

Lovely - lovely eyes

Pretty - pretty smile

Lovely eyes - pretty smile

When will I see you again? Show me - show me how

How to be you - I'd like to try

Show me how - show me now

Show me how to be you ('Cause) you're in my thoughts now - I wonder how

You've time to be anywhere else - time to be anywhere else

You're always busy making me dizzy

No time to be anywhere else - time to be anywhere else ...Disturbing - disturbing my thoughts - annoying - well,
maybe not

Disturbing, annoying - but in the good way of course

You're in my thoughts now - I wonder how

You've time to be anywhere else - time to be anywhere else

You're always busy making me dizzy

No time to be anywhere else - time to be anywhere else ...Where - have you gone? You're in my head - I'm
alone

Where have you gone to? And when will I see you again ...?
