

Thru My Eyes

MDM

It's never where you think you'll find it
The thing, you think you're looking for
 It could take you all your lifetime
 And still you'd never quite be sure
 You could look everywhere
 Because you know it's there
 Somewhere beneath the sky
 Too close and you'll get burned
 There's no lesson learned
 Yet some people pass it by
 You'll see things different
 When you look thru my eyes
 Things are different
 If you see what I see
 Just look closely
 And you'll see thru my eyes
 It could be different
 You'll see how it could be
 If you can see, me
 You may need help
 To find your way home
 Those who brought
 You here have flown
 The road you take
 Is full of hope or sadness
 The choice you make
 Will be your own
 But you're not alone in there
 Just say hello in there
 'Cause there are many just like you
 Just like you
 They'll help you find someway
 To make it all the way
 They'll tell you all you have to do
 You'll see things different
 When you look thru my eyes
 Things are different
 If you see what I see
 Just look closely

And you'll see thru my eyes
It could be different

You'll see how it could be
If you can see, me
No one warns you
Of the heartache
No one can hide
You from the storm
But from the shadows
There will come the sunshine
A place to dry
And keep you warm
Though no one tells you how
Your heart's beating faster now
Getting stronger day by day
Suddenly it's clear
What you seek is near
It's what you learn
Along the way
It's never where
You think you'll find it
The thing, you think
You're looking for
Well, it could take
You all of your lifetime
Still you'll never quite be sure
You'll find it
You'll find it
Just look closer
You'll find it
Look closer
It's there
You'll find it
You'll find it
You'll find it
If you look closer
Look closer
Look closer
Look closer
You're gonna find it
