

Take Me To Infinity

Breathe Carolina

Take me to infinity
If we could stop time tonight then there would be no goodbye
Don't let me go, don't you dare close your eyes.
Take me to infinity.
Trust what you feel 'cause your eyes will deceive
Take everything, all the time you can steal
And it felt like ooo ooo ooo ooo!
Take me to infinity
Sparkle and shine, Baby light up the sky.
I'll feel up your soul, in the dark if you're shy.
Take me to infinity
Out of control at the speed of this light
A never ending kick so we'll never die.
Take me to infinity
Keep this beat between your teeth, it's relentless and red.
Come on and melt your body,
Let your hips hit your knees
