

# Playdown

## Bee Gees

I'm not a ghost, I am a man  
I only do the best I can  
Believin' I will find a way  
It's just a price that you must pay All my friends, they put me down  
So, I go from town to town  
They all say that I'm a clown  
They play high and I play down  
They play high and I play I play the game, I see the light  
I walk in day, you walk in night  
Believe me, boy, it ain't no good  
In doin' what you never should All my friends, they put me down  
So, I go from town to town  
They all say that I'm a clown  
They play high and I play down  
They play high and I play
