Black Abyss

Black Tide

There is nothing left for me to see
The thought of end is killing me
I guess it's time for my demise
There's no more time, I'm left aside
There's no more pain, there's no more tears
There's no more feeling, no more fear
The darkness creeps upon my skin
These wounds won't heal, this is my sin
This is the black abyss
My life's apocalypse
Eternal suffering
No future for me to see
This is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behind
As my life rots away
I long the day for my decay
I'll soon be there in death's grasp
And won't let go, now I'm dead

This paranoia, I can't last
These days are now my last
The sense of evil is closing in
It is a phobia that kills within
This is the black abyss
My life's apocalypse
Eternal suffering
No future for me to see
This is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behind
This is the black abyss
My life's apocalypse
Eternal suffering
No future for me to see
This is the black abyss
Executor of my soul

This darkness fills my eyes
And I'm now left behind
