

Each Dawn I Die

Necromantia

Originally performed by Manowar
Passing through the storm -
 Led by Demons - walk between the
 World of men and gods -
 Cast no shadows - draw no light.
I rape the priestess on pagans night.I taste the serpents poison
 On the lips of the one I love.
 She brings this gift of witchcraft.
I wear the cat-skin-gloves.Apples of youth when I wrought
 Mischief, hung in a tree to rot
 In the sun.
 Reborn in the middle of the
 Final orgy the gift of slavery
To the chosen one.Suicide Suicide don't you know
 Me-call to the Master - he will
 Come. - He will bring out
 Ressurection-cloaked in darkness -
 He has won.Smoke of my sacrifice.
 Journey to the Isle of the
 Blessed.
 Grant my soul your glory.
 At night time - I'm your guest.
Only I know whyEach dawn I die.
