

Love's Gonna Always Win

[Paulina Jayne](#)

Verse 1.

Hello hatred
How long have you been waiting
For peace and love to die and make you king

You been tryin
To keep the dove from flyin
To break into our hearts and silence love before it sings

Chorus.

Well the world's on fire
Hope is a burnin
Inferno high
Love is a candle that you can't unlight
Love's gonna always win

(No matter who we are
We all speak the only language of the heart
It's the only thing that saves us in the end
Love's gonna always win)

Verse 2.

Come on kindness
Don't let fear define us
There's no heart so dark that light can't overcome
Hate can't chase us out if we don't run

Bridge.

Love will always x3
Love's gonna always win

The world's on fire x3
But love's gonna always win

Chorus 2nd Half.
