Razorblade

Randy

Razorblade, I got myself a razorblade
I got myself a razor
Makes me strong enough to face her
Razorblade, I got myself a razorbladeRazorblade, I got myself a razorblade
I'll let you count my stitches
Let you know how much it itches
Razorblade, I got myself a razorbladeDon't need a switchblade or a knife
To deprive someone their livesCome take a walk with me
Got something you must see
Don't let the moment fade
While I take out my razorbladeRazorblade, I got myself a razorblade
Even though it cuts real deep
It still wont make you weep
Razorblade, I got myself a razorbladeDon't need a time bomb or a gun
If we're going to have some funCome take a walk with me
Got something you must see
Don't let the moment fade
While I take out my razorbladeDon't have to slash your wrist
To prove that you exist
Look at this scars it made
While I take out my razorblade
While I take out my razorblade
While I take out my razorblade
