Bad Girl

Danity Kane

When the red light comes on, I transform
When the red light comes on, I transformLook in my eyes covered in Maybelline
Looking like something fresh out of a magazine
I can be part of your deepest fantasies
Youre the detective, come solve my mysterySome say that love is all that Im missing
Some call it Jezebel, I call it attention
But what they dont know they cant even imagine
Say, I dont have self esteem but it's my passionMaybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl, a bad girlI can be your addiction
If you wanna get hooked on me
I, I can be your addiction
If you wanna get hooked on meMaybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl, a bad girlWhen the red light comes on, I transform
When the red light comes on, I transform
When the red light comes on, I transformSomething about me has got you hypnotized
Examine my body like youre the science guy
Watching my every move, you anticipate
What youre thinking about, boy, I can re-createSome say that love is all that Im missing
Some call it Jezebel, I call it attention
But what they dont know they cant even imagine
Say, I dont have self esteem but it's my passionMaybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl
Maybe Im just a bad girl, a bad girlI hope you looking for a B A D C H I C
