

# Bad Girl

Danity Kane

When the red light comes on, I transform  
When the red light comes on, I transform Look in my eyes covered in Maybelline  
Looking like something fresh out of a magazine  
I can be part of your deepest fantasies  
You're the detective, come solve my mystery Some say that love is all that I'm missing  
Some call it Jezebel, I call it attention  
But what they don't know they can't even imagine  
Say, I don't have self esteem but it's my passion Maybe I'm just a bad girl  
Maybe I'm just a bad girl  
Maybe I'm just a bad girl  
Maybe I'm just a bad girl, a bad girl I can be your addiction  
If you wanna get hooked on me  
I, I can be your addiction  
If you wanna get hooked on me Maybe I'm just a bad girl  
Maybe I'm just a bad girl  
Maybe I'm just a bad girl  
Maybe I'm just a bad girl, a bad girl When the red light comes on, I transform  
When the red light comes on, I transform  
When the red light comes on, I transform Something about me has got you hypnotized  
Examine my body like you're the science guy  
Watching my every move, you anticipate  
What you're thinking about, boy, I can re-create Some say that love is all that I'm missing  
Some call it Jezebel, I call it attention  
But what they don't know they can't even imagine  
Say, I don't have self esteem but it's my passion Maybe I'm just a bad girl  
Maybe I'm just a bad girl  
Maybe I'm just a bad girl  
Maybe I'm just a bad girl, a bad girl I hope you looking for a B A D C H I C  
Looking so sexy, make 'em pay me  
She not me, 'cuz there just one me  
I'm the M to the I double S E Y Lights come on I tran-transform  
Gimme that, baby come, come on  
I could do it all night to the break of dawn  
On, on, and on, I keep on going They call me a Jezebel  
Cause I freaks, I does it well  
Got extensions in my hair  
Bad girls, is y'all up in here Tonight we gon just let it do what it do

Maybe Im just a bad girl, a bad girl When the red light comes on, I transform  
When the red light comes on, I transform  
When the red light comes on, I transform
