

# New Religion

## Jazz Cartier

[Hook]

As God as my witness

Money is my new religion

And I put that on all of my niggas won't stop till we get us a million, I promise x2And I promise(Bridge)(Riding through that porsche hide a million from the lord)Money is my new religion

I put that on all of my niggas

As God as my witness[Verse 1]I fill up my sorrows in bottles and drink like I don't want to tomorrow

So many pills in my cabinet but life is the hardest to swallow

My pockets been hollow, but lately I feel like I just won the lotto

And my niggas still pitchin that Kane you would think that they played in ChicagoFinesse and I jug...finesse and

I jug..I'm kanye with shrugs

Hard to be sane on these drugs

I promised i'd quit but I can't get enough

Diamonds on my neck I'm a diamond in the rough

As I lay on this rug, I'm still connected I get the low from my plug

Fill my cup up with mud[Hook][Verse 2]Remember them days in Atalanta my mama just copped an armada

I was losing my life in Niagra I figured I die Nevada

Burning my money is blasphemous, but listen cause this the cantata

My dad prolly dead but I swore that he would when he would when he bailed on my mamaFinesse and I jug

Finesse and I jugRollin hard in this hard club

My bitch so chilli that she won't let me be a scrub

Just to keep it a buck

Throwing my money so much you would think I'm a clutz

In the Benji I trust

All of my bands came in clutch

The moment I step to the judge[Hook]

As God as my witness

Money is my new religion

And I put that on all of my niggas won't stop till we get us a million, I promise x2And I promise(Riding through that porsche hide a million from the lord)Money is my new religion

I put that on all of my niggas

As God as my witness(Bridge)(Riding through that porsche hide a million from the lord)
