Can't Stop The Rain

Cascada

How, how am I supposed to feel
When everything surrounding me
Is nothing but a fake disguise?
I don't know, I don't know where I belong
It's time for me to carry on, I'll say goodbye
I can't stop the rain from fallin'
I'm drownin' in these tears I cry
Since you left without a warning
I face the dawn with sleepless eyes
No, I can't go on
When clouds are pushin' down on me, boy
I can't stop, I can't stop the rain from fallin'
So, tell me where I went wrong?
I'm stuck inside a dream long gone
It's hard to reveal the truth
Your love is nothing but a bitter taste
It's better if I walk away, away from you
(Better if I walk away)
I can't stop the rain from fallin'
I'm drownin' in these tears I cry
Since you left without a warning
I face the dawn with sleepless eyes
No, I can't go on
When clouds are pushin' down on me, boy
I can't stop, I can't stop the rain from fallin'
