

# Religion

## The Grey Wolves

Suck my mouth, suck my pain away  
Suck my mouth, suck my pain away  
Helplessness, I am hard to stain  
Potentially inappropriate  
I am naked before you  
Look at me  
You came for me, I pray to you  
You are in me  
You are my religion, you are my religion  
I'm loving you, you're loving me  
Brutal truth, it is profound  
Can you hear the sound of my breath?  
Suck my mouth, suck my pain away  
Suck my mouth, suck my pain away  
Inhale me, inhale all my life  
Confronting love on the other side  
I am naked before you  
Look at me  
You came for me, I pray to you  
You are in me  
You are my religion, you are my religion  
I'm loving you, you're loving me  
You are my religion, you are my religion  
I'm touching you, you're touching me  
Intoxicated with your breath  
My eyes close, I am a mess  
Starving and cold and I need your love  
You keep me real, you lift me up  
Prayer soft, I am in love  
Devotee of your immortal love  
Brutal truth, it is profound  
Can you hear the sound of my breath?  
You are my religion, you are my religion  
I'm loving you, you're loving me  
You are my religion, you are my religion  
I'm touching you, you're touching me  
You are my religion, you are my religion  
I'm loving you, you're loving me  
You are my religion, you are my religion
