

# Holy Whore

## Bewitched

Just one among the nuns yet  
She's possessed by demonic forces  
Before their journey to paradise  
She'll change the heavenly courses  
In daylight she's what the Christians adore  
After midnight she's a pure holy whore  
Seducing their foolish minds  
With intentions evil made  
Whispering words from hell  
And angels in thousand slayed  
With her poison in your flesh  
The virginity you're betrayed  
As she suck your last blood  
Flames of life she'll put to fade  
After she's had her way  
Ripped to death they lay  
Never to see the light of day  
After she's had her way  
Sexual masochistic fucking torture  
The desires she's living for  
Always in hunt for more  
She's the morbid holy whore  
Our way to God
