

You In A Song

Jason Reeves

Tryin' to figure out which way I want this to go
Do I want it to be happy or sad or fast or slow?

Tryin' to work it out what it is I feel

Do I wanna rock you, shock you

Soothe you or move you?

I just wanna write you in a song

Put your smile on paper so you can sing along

I just wanna bottle the sun

Keep your light a secret I can find

When you are gone, gone, gone

When you are gone, gone, gone

You are like a beautiful tree

With roots in the ground so deep

Where they could never be seen

I'm a leaf that's ready to fall

And the wind's gonna blow me

Someday away from it all

I just wanna write you in a song

Put your smile on paper so you can sing along

I just wanna bottle the sun

Keep your light a secret I can find

When you are gone, gone, gone

When you are gone, gone, gone

When you are gone, gone, gone, gone

I just wanna write you in a song

Most people when they can't get away

It makes them more than a little crazy

But I'm the one that can never stay

I'll always have you with me

Always have you with me in this song, this song

I just wanna write you in a song

Put your smile on paper so you can sing along

I just wanna bottle the sun

Keep your light a secret I can find

When you are gone

I just wanna write you in a song

Put your smile on paper so you can sing along

I just wanna bottle the sun

Keep your light a secret I can find
When you are gone, gone, gone
When you are gone, gone, gone
When you are gone, gone, gone, gone
I just wanna write you in a song
So, so, so when you are gone, gone
When you are gone, gone
When you are gone, gone
I, I just wanna write you in a song
Gone, gone, gone
