

# Love Stops Here

## The Juan MacLean

Flying, with your heart on your seat again

Memory buys the time

That words can't relate

And If I told you twice

That I can't not be there again

Then memory buys the time

Memory buys the time

Memory buys the time

Memory buys the time

To get home

Feeling, like I can't half relate

People always stop and stare

But they never really seem to care

And if you've paid the price

For a heart that was cold as ice

Then memory buys the time

Memory buys the time

Memory buys the time

Memory buys that time

We get on

Dying, never feels like the end

You waited for a second chance

Another sad circumstance

Memory buys the time

Memory buys the time

Memory buys the time

Memory buys the time

To get home
