

Possession

Danzig

I want to crawl inside your soul
Nestle in your brain
Stand you on your head
Crouch you on all fours Oh, I will walk among your dreams
When you think you are asleep
The invitation of your mind
Beckons me to your sin All the things that you say and feel For I will be inside your speech
Say the words you must not say
For I will lurk inside your heart
If you can take it and survive As it must ever be, oppression
It's ever been, through my oppressive black sleeping
It has always been, possession
As it must always be All the things that you say and feel
Become possession, riding
Possession, riding you hard
Possession, riding you on, yeah Well I will worm inside your skull
Make you beg to be my whore
Do my bidding day and night
If you can take it and survive As it must ever be, opppression
It's ever been, through my oppressive black sleeping
It has always been possession
As it must always be All the things that you say and feel
Become possession, riding
Possession, riding you hard
Possession, riding onto you Possession, riding
Possession, riding you hard
Possession, riding you on, yeah
