

Stabbed

Glasvegas

I'm gonna get stabbed
The Baltic fleet oh are up my arse
No cavalry could ever save me
I'm gonna get stabbed You don't want to stab me
You don't want to stab me
'Cause you don't know my family
And our capabilities
You don't want to stab me I had my choice, I took my choice
That I was to stand and fight the fleet boys
But now I find myself running for my life
I seen their swords and their knives
And I changed my mind It's time to go
It's time to run
Run rabbit run
Run rabbit run
