Sweet Fallen Angel

Inkubus Sukkubus

Sweet fallen angel, come to me
Let my embrace set you free
Let my blade take away your pain
For you and I are one and the same
Let me weave the dreams you dream
Let me kiss away your tears Let me hold you as you sleep
Let me take your soul to keep
Let me take your soul to keep
Iâ€™ll cradle you through endless sleep
Iâ€™ll stroke your brow through endless sleep
Iâ€™ll hold you close through endless sleep
Iâ€™ll kiss your lips through endless sleep
