Forget You

Distorted Penguins

You really suck, you suck alot
You think you're cool, but you are not
You are as dumb as a box of hair
Here is a quarter, go call someone who cares
Why do you pity youself like this
Help fend off your sister
I don't wanna kiss her again
You really suck, you suck alot
Think I'm your friend, but I am not
Please, get away
You don't make my dayForget you - Forget your mother too
Forget you - Forget your brother too
Forget you - Forget the other two
Forget you - Forget your mother tooYou are a curse you've got some foul ass luck
What makes you so helpless, you stupid shmuck
You're just another fool going to my stupid school
You're no exception to the rule
So all that I can say is forget youPlease, get away
You don't make my day
