

# Halcyon

## Delphic

You said enough, you said too much  
You focus solely on her touch and halcyon  
In arguments set in stone  
In promises of what was once, you come undone If you take this away, I fade to black and disappear  
If it's all a state of mind Give me something I can believe in  
Aah  
What you say doesn't say that you mean it  
Aah If I'm wrong well at least I know better  
Aah  
Give me something I can believe in  
Aah  
It's in your hands No war, no causes and effects  
No looking back and then regret  
Of halcyon And I know I know I tried too much  
All the time I waste yeah I'm losing touch  
All the time If you take this away, I fade to black and disappear  
If it's all a state of mind Give me something I can believe in  
Aah  
What you say doesn't say that you mean it  
Aah If I'm wrong well at least I know better  
Aaaah  
Give me something I can believe in  
Aah  
It's in your hands Aaa  
Aaa  
Aaa  
Aaa Aaa  
Aaa  
Aaa  
Aaa Give me something I can believe in  
Aah  
What you say doesn't say that you mean it  
Aah If I'm wrong yeah at least I know better  
Aah  
Give me something I can believe in  
Aah  
It's in your hands
