

Get Out

Amplified

Verse 1:

He comes again, Personal hell

It's like my ball and chain It's time to act, To face the facts

I have to cut it off Temptations walk around me, They try to pull me in

This time you will not get me, This time they won't prevail Chorus:

Get out 4x Verse 2:

It brings me pain, I cannot take

I have to break free Devil inside, Self satisfied

My life won't crumble I have to put him under, Six feet is not enough

I always have to fight him, This time i will prevail

Bridge:

At night in my self centered loathing

The temptations start to rip in my flesh

I still manage to keep my head sane, I will not give in! not today!
