Stay With Me

Terminal Choice

I am walking on this endless road
I try it to follow your footsteps
I am searching for you in the night
and I always ask me why
why did you leave me?
why did you say no silent words?
why did you try to find your way alone?
why don't you leave me anymore?please stay with me
please stay with me
I wanna hold you in my arms
can't you hear me cry
why did you have to die
I can't never tell you what I feel
please stay with me
please stay with me
I wanna hold you in my arms
can't you hear me cry
why did you have to die
I will never see you againI see your body lying on the ground
I see the blood running out your face
I see your clothes they are soaked with blood
I touch your skin it feels so cold
someone killed you in this night
I feel the anger inside my mind
why couldn't I have protected you?
why did you die here without me?
