Down Through the Night

Hawkwind

Down down and down
Down down and downAs we spin through the night
With ever increasing might
Down down and down
Down down and downReturning volumes of sound
Into the blackness we drown
Round round and round
Round round and roundAs we lay in our sleep
The appointment we keep
Down down and down
Down down and downOnly the rushing is heard
Onward flies the bird
Deep deep and deep
Must we sink in our sleepDown down and down
Down down and down
Returning volumes of sound
Returning volumes of sound
