One Day

Charice

(One day, one day, one day)They're not gonna keep me down They're not gonna shut me out They're gonna do what they do, I'll do me I'm moving against the crowd I'm drowning out, their doubt They're gonna do what they do I'll do something original, Be unforgettable They're gonna know my nameCHORUS:(One day) I'll make you a believer (One day) I got this all I need is (One day) Don't try to tell me I can't (tell me I can't) (Right now) I'm writing the future (Watch out) Wont stop I'm a mover (One day) You're gonna know who I am I will fly high and free It's my fate wait and see One dayI've been afraid before, To reach for something more But now I see that it's mine, I'll take it Just go ahead and try, You're not gonna change my mind There's no such thing as too late, yeah! (One day) I'll make you a believer (One day) I got this all I need is (One day) Don't try to tell me I can't (tell me I can't) (Right now) I'm writing the future (Watch out) Wont stop I'm a mover (One day) You're gonna know who I am I will fly high and free It's my fate wait and seeBRIDGE:I'm on a mission, no longer listening To anyone that says don't try Sometimes you feel it, deep in your spirit It's like a fire that won't die(One day) Wait and see (One day) Oooh (One day) Just wait and seeCHORUS:(One day) I'll make you a believer (One day) I got this all I need is

(One day) Don't try to tell me I can't (ooooh)
(Right now) I'm writing the future
(Watch out) Wont stop I'm a mover
(One day) You're gonna know who I am (know who I am)

I will fly high and free It's my fate wait and see, one dayOne day, one day One day, one day
