

Bye Bye Blues (The Whole West Coast is Ruined)

Drop Dead, Gorgeous

the ocean pours from her eyes
while the statues crumble aside
and this city overrun with traffic
is so over concentrated with this static
and I scream
and nobody listens
and I scream
yet everyone's louder
drink until everything seems to make sense
in this desperate night we were all wearing costume
lay awake until the stomach settles
just one taste will make it all feel better
I don't fear
I don't care
you never had the guts to face me
Kill! Kill! Kill! Kill!
I need you
Bye bye blues
bye bye blues
lay awake until the stomach settles
just one taste will make it all feel better
"I don't believe we've met...
allow me to introduce myself"
I don't believe we've met...
when I look at you I can see myself
