From This Day

Lene Marlin

There's a day I never will forget
The day we met, when we met
I know that they all thought that you were good
You were good, we were good
From this day on, I'll follow you
I'll keep you near, like I promised to
And I swear to you
I won't be gone when the night comes
From this day on, I'll be with you
I'll take your hand, when you need me to
From this day on
So maybe I didn't think we'd come this far

Well, here we are ... here we are
Now I wouldn't know what to do
If I were to lose you, I don't wanna lose you
From this day on, I'll follow you
I'll keep you near, like I promised to
And I swear to you
I won't be gone when the night comes
From this day on, I'll be with you
I'll take your hand, when you need me to
From this day on
Maybe I didn't think we'd come this far
Well, here we are ... here we are
