

# Light on Me

## Sam Wills

Wait up with me  
I wanna see your dawn  
I stay up past three  
Watch the day reborn  
Ooh oh oh  
I feel so alive  
Right through the night time  
Love found you revived  
And you want me to pave the way  
Hold out for the rise  
Saving the daylight just for me  
All we've got to do is (light)  
I'm waiting for you  
Chasing the light  
I'll never try to distort you  
Chasing the light  
I'm waiting for you  
Shed a little light on me

Wait up with me  
I wanna paint the sky, the sky  
A dark now it seems that  
I wanna watch us come to life  
To life, oh, to life  
I'm waiting for you  
Chasing the light  
I'll never try to distort you  
Chasing the light  
I'm waiting for you  
Shed a little light on me

And when the morning breaks,  
You'll be shaking  
But don't be afraid, no  
Just follow where I take you  
I will make you home  
And now as we wait  
We build our landscape

I wanna see the mountains move within our way

I'm waiting for you  
Chasing the light  
I'll never try to distort you  
Chasing the light  
I'm waiting for you  
Shed a little light on (me)
