

Monoliths

Maserati

There's no world
And no God
And no hate
And no fraught
And no fate
And no thought
It's just me
Getting hard

Hey
Somewhere outside
And I wish I could be there
Most of the time

As I hear
All the crews
That go out
Of the room
As it waves
Down the hall
It's just me
Not at all

Hey
Somewhere outside
And I wish I could be there
Most of the time

And one of these days
I hope I come 'round
And one of these days
I hope I come 'round
And one of these days
I hope I come 'round
And one of these days
I hope I come 'round
And one of these days
I'll come around
One of these days
I'll come around

One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
One of these days
I'll come around
