

# I Want What I Want

## Social Distortion

Yeah, I wanted a vintage Harley  
I wanted a house with a yard  
I wanted a pocket full of money and  
A wardrobe of clothes with style  
My style Because I want what I want  
And I want it now  
You mean this great big world  
Doesn't revolve around me Yeah, I wanted a '55 Cadillac  
Sittin' low, chromed and shiny black  
But then somebody told me  
The best things in life aren't things Because I want what I want  
And I want it now  
You mean this great big world  
Doesn't revolve around me
