

Inauguration Of Scorpio Dome

Behemoth

Mere emeles

Mere selem

I em'a den

Lashtal

Lucifer!

Lucifer!

Aivass!So every man and woman is a star

But who is Scorpio by fire ring'd

Where fall means increase?When on the throne of life he seats

The bloody sword of freedom sways

And light of hells in his eyes

And secret breath of loveAs the first whore of the world

Banish'd god from body

Carnal divinity she restor'd

As infinite of night sky

Augmn ov sothis

When tunnel of tuat means disorder

Past, future, painful

And from the eternal revolt we're born

To word can make flesh
