

# Mr. Record Man

Willie Nelson

Mister record man I'm looking for a song I heard today  
There was someone blue singing 'bout someone who went away  
Just like me his heart was yearning for a love that used to be  
It's a lonely song about a lonely man

Like me

There was something about a love that didn't treat him right  
And he'd wake from troubled sleep and cry her name at night  
Mister record man get this record for me won't you please

It's a lonely song about a lonely man

Like me I was driving down the highway with the radio turned on

And a man that I heard singing sound so blue and all alone

As I listen to his lonely song I wonder could it be

Could there somewhere be another lonely man

Like me

There was something about a love that didn't treat him right  
And he'd wake from troubled sleep and cry her name at night

Mister record man get this record for me, won't you please

It's a lonely song about a lonely man

Like me
