Skinnyman

Task Force presents...

My little girl, my little girl
My little girl, where are you?
My fucked up world, my fucked up world
My fucked up world destroyed youDay after day, day after day
I get it now, I just go on without you
Twisted inside, six miles high
I rehearse how to say goodbye to youSkinnyman
Turned into a monster, I'm a motherfuckerWrap it up tight, wrap it up tight
Emotions are distorted
It's no surprise, nothing alive
All hope has been abortedDay after day, day after day
I get it now, I just go on without you
Twisted inside, six miles high
I rehearse how to say goodbye to youSkinnyman
Turned into a monster, I'm a motherfucker
Inside I'm dead
All used up, goddamn I miss herAs my skin turns yellow
I forget this hell
As the skies are bruised
And the rain comes downAs my face turns pale
Try to deal with these thoughts
At the end of it all
At the end of it allAnd at the end of it all
At the end of it all
At the end of it all
At the end of it allAt the end of it all
At the end of it all
At the end of it all
At the end of it allSkinnyman
Turned into a monster, I'm a motherfucker
Inside I'm dead
All used up, goddamn I miss herAs my skin turns yellow
I forget this hell
As the skies are bruised
And the rain comes downAs my face turns pale
Try to deal with these thoughts
At the end of it all
I still miss you
