

# Heart of Hearts

[Don Williams](#)

"Heart Of Hearts" In your heart of hearts there is a voice  
It speaks from truth and not from choice  
It sees it all not just in part  
Deep inside your heart of hearts A secret place known to your soul  
Where you can't hide but you can go  
When it's all too much and you fall apart  
There's a state of grace called your heart of hearts [Chorus:]  
Just listen to your life, it's talking to you  
There'll always be a light that's running through ya  
Flowing from a well that never runs dry When you're at the point down on your knees  
You can find your weakness can be your strength  
Cause where one ends, the other starts  
Deep inside your heart of hearts [Chorus:]  
Just listen to your life, it's talking to you  
There'll always be a light that's running through ya  
Flowing from a well that never runs dry In your heart of hearts, there is a voice  
It speaks from truth, and not from choice  
It sees it all not just in part  
Deep inside your heart of hearts the lyrics here...
