Walk You Home (The Cleaner)

Karmina

Slow down, what's on your mind?
It's alright, I'm on your side
I hate to see your injury, I wish that you could transfer all
Your pain to me
Stay here, it's ok to cry
Let me, help you make it right
Let's turn up a radio, let the bands remind you that you're not
Alone
We all get lowChorus
Even the brave may depend on someone
The moon only shines with the help of the sun
And it's not as safe when your walking aloneI'll walk you homeSuns out, but it feels like rain
So I will, illuminate your day
I'm afraid I'm losing it, what's it gonna take for me to get
Throught this?
We'll get through thisEven the brave may depend on someone
The moon only shines with the help of the sun
And it's not as safe when your walking aloneI'll walk you homeI'll walk you homeBridge
Need the band to play the song
Someone's hand to keep you strong
It's harder when you're on your own
Success is not the same alone
Can't have up without the down
Need the straight to have the round
I'll provide the harmony
Your song is best accompaniedEven the brave may depend on someone
The moon only shines with the help of the sun
And it's not as safe when your walking aloneI'll walk you homeI'll walk you homeI'll walk you home
