

# When My Baby Comes (SixToes Remix)

## Grinderman

Thank God we don't get all our hurts at once  
That would be a really bad thing  
When my baby comes  
Thank God we don't get all our olds at one time  
(Listen to me talking in my hospital gown!)

When my baby comes  
Best thing about this place are the showers  
Worst thing is the visiting hours  
(Hey, careful of the carpet!)

When my baby comes  
They had pistols and they had guns  
They threw me on the ground as they entered into me  
(I was only fifteen!)

When my baby comes Just how long you gonna be, my baby?  
Until you come? She got hands as white as milk  
And weaves a web of spider's silk that glistens

When my baby comes  
There is an ancient question behind her eyes  
That I can't even begin to describe  
(Hey, don't do that on the carpet!)

When my baby comes  
Is there anyone out there wasted their lives?  
On booze drugs husbands wives and making money?

When my baby comes  
They had pistols and they had guns  
My skirt above my head I was so much older  
When I crawled out from their mushroom cloud

When my baby comes Just how long you gonna be, my baby?  
Until you come?
