Control

Traci Lords

You said you're lonely, you said you're blue
You lost your lover, let me console you
If you surrender, you'll feel no pain
'Cause I'm the master at this gameLet me kiss it and make it better
And then tonight, you will forget her
Let me kiss it and make it better
And then tonight, you will forget herControl your soul, control
Control your soul, let me control it
Control your soul, control
Control your soul, let me control itCome with me to the other side
Come with we'll swim beneath the tide
Come with me to the other side
Come with me beneath the tideLet me kiss it
(Let me kiss it)
