Oh Daddy

Christina Milian

[VERSE 1:]
I used to be Daddy's little girl
To us you meant the world
And oh, how we seemed so happy
Thought we had everything
But oh, how the seasons changed
When you broke up wiht us and made a new family

So many times I cried
Sleepless nights
Asking why did you go
I still don't know
What happened to the man I used to know?

[CHORUS:]
You loved me then left me out here with no Daddy
No longer a family with Daddy
Though we struggled for a while we still made it through these trials
I don't think back because we're ok, Oh Daddy

[VERSE 2:]
Day by day it got so hard
Ma taking any job
And the car just won't drive and nothing to get by
Next thing we in a food line
These things, no you didn't see
Cuz dad you gave up on me
I just kept following my dreams

[REPEAT CHORUS]

[BRIDGE:]
Now slowly I start to understand
This was just all part of a plan
Cuz withouth you we've been through so many things
Now to you we are thanking
And every word I say is true
I couldn't forgive but now I do
But we still can't forget I just can't let it happen all over again

[REPEAT CHORUS 2x]
