

# Out of My Mind

## Ian Gillan & Tony Iommi

It took a while but it drove me senseless  
Now they say I'm non compos mentis  
Little wonder I'm still here at all  
Staring out from the guilt free on the wallIt's what happens when you mess with matches  
Everything's reduced to ashes  
Now I'm lost and brokenhearted  
My dreams had barely startedYou're never gonna drive those demons  
Out of my mind  
I know you've gone, but you're never  
Out of my mind  
Still see those pictures of hell, sends me  
Out of my mind  
My memory's photographic  
Some of those images stopped the traffic  
It wasn't me, it wasn't you  
Feel that it's nothing newI'm not guilty, but I'm conscious  
A bad net weight on my conscience  
Another thing I have to mention  
Sadly there's no redemptionYou're never gonna drive those demons  
Out of my mind  
I know you've gone, but you're never  
Out of my mind  
Still see those pictures of hell, sends me  
Out of my mindI want a lonely life  
I want a lonely life  
You're never gonna drive those demons  
Out of my mind  
I know you've gone, but you're never  
Out of my mind  
Still see those pictures of hell, sends me  
Out of my mind
